

2026

International Conference on Resilience and Management (ICRM 2026)

Resilience in Times of Uncertainty:
Transitions, Disruptions, and Adaptive Capacity

November
26 (Thu)-27 (Fri), 2026

National Tsing Hua University,
Hsinchu City, Taiwan

The International Conference on Resilience and Management (ICRM 2026) is organized by the Center for Resilience Research (CRR) at National Tsing Hua University. Building on the success of the 2024 conference, ICRM 2026 will bring together scholars, practitioners, and policy actors from around the world to discuss resilience in the face of global uncertainty and systemic change. The conference aims to foster international academic exchange, interdisciplinary collaboration, and dialogue between research and practice.

Conference Themes & Call for Papers

The conference welcomes interdisciplinary research and practice related to resilience across multiple domains, with a particular focus on the following keywords: resilience; uncertainty; transitions; disruption; volatility; systemic shocks; instability; adaptive capacity. Topics of interest include, but are not limited to, the following themes:

- ✓ Environmental and Ecological Resilience
- ✓ Governance, Policy, and National Resilience
- ✓ Organizational and Corporate Resilience
- ✓ Community and Cultural Resilience
- ✓ Education, Knowledge, and Capacity Building for Resilience
- ✓ Technology, Innovation, and Systemic Transformation
